**APPAREL INDUSTRY
ENTREPRENEURSHIP
GUIDE**

The book cover features a red header with the title. Below it is a collage of five small images showing various aspects of the apparel industry: a factory floor, workers at a sewing machine, a display of fabrics, finished t-shirts, and a person working on a garment. The main image is a close-up of a person's hands using a chalk or marker to mark a piece of fabric while a sewing machine is visible in the background.

About ISHA Learning

ISHA Learning Systems enables corporates in the retail, apparel, textile, leather and other soft goods industries create people supply chains well in advance enabling them to significantly reduce their People Sourcing and People Training Costs.

ISHA does this by partnering with corporates to understand their talent needs and then working with government departments, self help groups, NGOs, academic institutions and individuals to create people supply chains.

As a part of this process ISHA offers a range of services to

Government Departments/ Self Help Groups/ NGOs: Employability Training of Skilled Workers and Supervisors for wage and self employment, Business Plan Creation, Plant Setup Planning, Processes and Systems Definition, Market Linkages

Corporates: Entry Level Recruitment Services, Entry Level Assessment Services, Business Plan Creation, Plant Setup Planning, Processes and Systems Definition, Market Linkages, e-learning products and services.

Academic Institutions: Employability Training for Students enabling them to be 'Workplace Ready', establishment of Career Centers within the academic institutions' premises, Assessment and Certification Services, Internship and Placement Outsourcing Services, Training Enablement Tools like Syllabus Specific Multimedia and Online Content, Work Books, CDs, e-learning products and services, Faculty Training.

Individuals: Employability Training enabling them to be 'Workplace Ready', Study Aids like Syllabus Specific Multimedia and Online Content, Work Books, CDs, Assessment and Certification Services.

and

Educational Services Providers: e-learning products and services
